

Employee: The Assignment and Calendar Tabs

Last Modified on 10/29/2020 10:06 am CDT

What is WebCenter?

The employee portal of WebCenter gives you, the temp employee, access to important information including paycheck stubs, assignment info, and important documents.

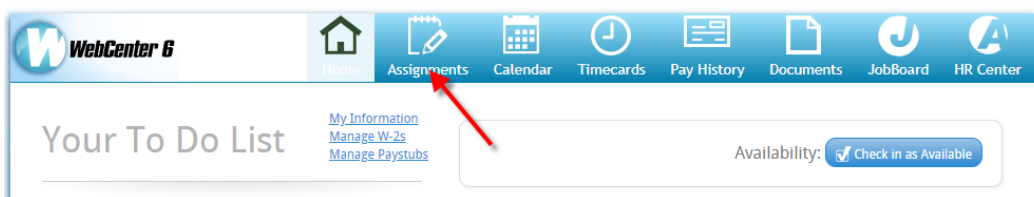

Note Each staffing company has a unique URL link to WebCenter and will need to provide you with log in credentials. These same credentials are used to log into HRCenter.

Check out [Employee: Welcome to WebCenter](#) for more information.

The Assignments Tab

In WebCenter, you can easily and quickly access and print your assignment information. This can be done by accessing the 'Assignments' tab located at the top of the screen. Alternatively, your current assignments will also be displayed under your to do list.

Note Every WebCenter user is configured by your staffing company and you may notice differences between your experience and the screenshots displayed in this article.

Assignments can be filtered into three groups: All, Current, and Past. The assignment being viewed will be highlighted and its details will display on the right:

Current (1) Past (21) All

4. Select Save

Adding a Recurring Availability

If you are always available or unavailable on a certain day of the week, you can use the recurring availability option. Keep in mind the recurring option will only update from the current day and will not be added to past days.

1. From the calendar tab in WebCenter, select New Recurring Availability in the upper left

The screenshot shows the Hillview Staffing WebCenter interface. At the top, there is a navigation bar with icons for Home, Assignments, and Calendar. Below the navigation bar, there are dropdown menus for 'November' and '2018', and a title 'New Recurring Availability'. Below the title, there is a calendar grid showing days from Sunday to Wednesday.

2. Enter the following information:
 - Start and End date
 - Reoccurrence
 - Days of the week
 - Availability
3. Optionally, add a note
4. Select Save

Note Employees in WebCenter will not have the ability to make changes to the assignment as can be made by recruiters and staffing specialists in Enterprise. Updates made to the WebCenter calendar will reflect within Enterprise [Activity Tracker](#).
