HARDWARE REQUIREMENTS

Tempworks Database Server: <http://kb.tempworks.com/help/tempworks-database-server-set-up-checklist>

Tempworks Report Server: <http://kb.tempworks.com/help/report-server-setup-checklist>

Tempworks Web Server: <http://kb.tempworks.com/help/web-server-setup-checklist>

Enterprise Client Deployment Guide: <http://kb.tempworks.com/help/enterprise-client-deployment-guide>

Additional tips and guides: <http://kb.tempworks.com/help/self-hosted>

Speed Testing for Desktops: <http://kb.tempworks.com/help/internet-speedquality-testing>

PROJECT INFORMATION

| | |
|---|---|
| Client Name: | |
| Parallel Date: (if established) | |
| Live Date: (if established) | |
| Current Database Version: (upgrade only) | |
| Target Database Version: | Tempworks Infinity and Tempworks Beyond |
| Date Hardware listed can be up and running: | |

LOCATIONS

Primary Location:

| | |
|--|--|
| External Connection Type: (VPN,RDP,Citrix) | |
| Connection String: (External IP or URL) | |
| Internet Speed (download/upload mbps) | |
| Total number of Tempworks users: | |
| Number of users at Primary Location: | |
| Number of Branches: | |
| Number of checks per week: | |

| | |
|---|--|
| Number of invoices per week: | |
| Anticipated growth over 3-5 years: | |
| Are the servers located at this location? | |
| Username: | YOU WILL BE ASKED TO PROVIDE 2-4 USER LOGINS FOR TEMPWORKS EMPLOYEES BY YOUR PROJECT MANAGER |
| Password: | YOU WILL BE ASKED TO PROVIDE 2-4 USER LOGINS FOR TEMPWORKS EMPLOYEES BY YOUR PROJECT MANAGER |

Branches:

| | Location 1 | Location 2 | Location 3 | Location 4 | Location 5 |
|--|------------|------------|------------|------------|------------|
| Physical Location (Branch Name): | | | | | |
| Number of Users: | | | | | |
| External Connection Type: (VPN,RDP,Citrix) | | | | | |
| Internet Speed: (download/upload mbps) | | | | | |
| Location uses VoIP Phones? | | | | | |
| Location uses VPN for corporate connectivity? | | | | | |
| Location Prints checks or invoices? | | | | | |
| <i>Add more locations on a separate document if needed</i> | | | | | |

TEMPWORKS TARGET HARDWARE

SQL Server*

Note that SQL Server 2016 is required.

| | |
|------------------------------------|--|
| Server Name: | |
| IP Address: | |
| Operating System: | |
| Number of physical CPUs or vCPUs: | |
| Number of cores per CPU or vCores: | |
| CPU Make and Model: | |
| | |

| | |
|-----------------------------|--|
| RAM in GB: | |
| Is Virtualized (yes or no): | |

SQL Server Disk Set Up

| <i>Placing volumes on the same RAID disk array or LUNs is strongly discouraged.</i> | | | | | |
|---|---|--------|---------------|-----------|--------------|
| | File System Type: (Direct/VFS/VMFS/VirtualDisks) | LUN ID | Num. of disks | RAID Type | Drive Letter |
| Primary OS volume | | | | | |
| SQL Data file volume | | | | | |
| SQL Log file volume | | | | | |
| SQL TempDB file volume | | | | | |
| SQL FileStream volume (Overview) | | | | | |
| | Total disks in system: | | | | |

NOTES: If server is virtualized, see requirements here: [Self-Hosted Database Server Recommendations](#)

List other installed application other than SQL Server:

| |
|--|
| |
| |
| |
| |

Report Desktop / Citrix Servers

| | Server #1 | Server #2 | Server #3 | Server #4 | Server #5 |
|------------------------------------|-----------|-----------|-----------|-----------|-----------|
| Server Name: | | | | | |
| IP Address: | | | | | |
| Operating System: | | | | | |
| Number of physical CPUs or vCPUs: | | | | | |
| Number of cores per CPU or vCores: | | | | | |
| | | | | | |

| | | | | | |
|--|--|--|--|--|--|
| CPU Make and Model: | | | | | |
| RAM in GB: | | | | | |
| Concurrent user count: | | | | | |
| Is Virtualized: | | | | | |
| <i>Add more servers on a separate document if needed</i> | | | | | |

List applications other than Tempworks installed on servers:

| |
|--|
| |
| |
| |
| |
| |
| |
| |

Web Servers

| | Server #1 |
|---|-----------|
| Server Name: | |
| IP Address: | |
| Operating System: | |
| IIS Version: | |
| Number of physical CPUs or vCPUs: | |
| Number of cores per CPU or vCores: | |
| CPU Make and Model: | |
| RAM in GB: | |
| Is Virtualized: | |
| Do you currently have a wildcard SSL certificate: | |
| What is the domain associated with the server: | |
| Will you be moving other modules to this server or only the TW modules: | |
| <i>Add more servers on a separate document if needed</i> | |

List other server roles and services other than IIS

| |
|--|
| |
|--|

| |
|--|
| |
| |
| |

Note: Please install .Net 4.6.1 on web server.

Note: If you will be using HRCenter, due to architectural dependencies on Windows Azure, the HRCenter module will not be installed on your Web Server. It will be hosted on the TempWorks cloud.

Virtualization Host Servers

| | Server #1 | Server #2 | Server #3 | Server #4 | Server #5 |
|--|-----------|-----------|-----------|-----------|-----------|
| Virtualization type (Hyper-V, VMware, Citrix): | | | | | |
| Virtualization type version number: | | | | | |
| Number of physical CPUs: | | | | | |
| Number of cores per CPU: | | | | | |
| CPU Make and Model: | | | | | |
| RAM in GB: | | | | | |
| Number of hosted VMs: | | | | | |
| <i>Add more servers on a separate document</i> | | | | | |

| | |
|--|-------------------------|
| Configuration Approved By: (Tempworks Representative): | Date Hardware Approved: |
| | |
