

Release Notes: 06/23/2017

Last Modified on 06/22/2017 3:29 pm CDT

Version ∞2017.6.23:

Enterprise

Improvements:

- When an employee does not have a maximum deduction set up for an adjustment that is linked to an employer paid portion, users will get an error when attempting to process payroll. This error has been updated to be more user friendly and state which employee has an invalid adjustment.
- Optimized the Employee Message Report.
- Optimized the Contact Message Report.
- Updated the Message Productivity report to remove duplicate entries. Also, the Customer and Contact columns were modified to display the number of contacts or customers a single message is linked to if the message is linked to more than 1.

Fixes:

- Fixed an issue that caused invoice adjustments could become uneditable if two service reps had edited the same adjustment.
- Corrected an “Object is not valid and can not be saved” error when previewing an invoice. This error would occur when previewing an invoice with adjustment text between 70 and 75 characters long. Enterprise validation now allows 75 characters on invoice text for adjustments.
- Fixed a rare circumstance that could result in a timecard's gross being set to zero when refreshing the timecard from an assignment containing a bill rate change after payroll was processed.

Maintenance:

- Added TWAPI procedures for setting up contact and order interest codes.
- Added TWAPI procedures to allow for edits on employee interest codes.
- Added grant execute permissions for payadmin, payclerk, and sr for function IsNullOrEmpty.

HrCenter

Fixes:

- Fixed a potential hierarchy issue regarding interest codes on the Skills page. Users may have to use the 'Refresh the Cached Lists' option in the tools section of the HrCenter admin page.
-

WebCenter

Improvements:

- Candidates now are sorted by their candidate status alphabetically in the customer order candidate review page.
-

Taxes

Rate Changes:

- Updated Oregon Tri-Met tax to .72%.
- Updated Oregon Tri-Lane tax to .7437%.
- Updated Oregon tax tiers.
- Franklin KY eliminated max annual tax.
- McCreary County KY increased county tax from 1% to 1.5%.
- Mt Sterling KY tax has been set to 1%.
