

HRCenter Admin: Form Builder

Last Modified on 03/13/2020 10:54 am CDT

Before you begin, have your workbook ready! 

This training covers: The basics of HRCenter Admin, creating forms in form builder, configuring forms as pages, and adding forms to workflows.

Note Before getting started, please see [When and When Not to Use the HRCenter Form Builder](#) to determine whether or not a custom form will need to be developed. If you have determined that a custom form is not necessary, please view the video below and see the article for [HRCenter Form Builder](#).
