

# Release Notes: 08/25/2017

Last Modified on 08/24/2017 1:45 pm CDT

Version ∞2017.8.25:

---

## Enterprise

---

### New:

- Default period and monthly max can now be setup on adjustments in All Options > Adjustments.
- Added new proofing error warnings to prevent discrepancies in reports and GL balancing issues due to mismatched EINCs.
  - Created a new proofing error/warning that finds when the billing EINC is different from the timecard's EINC.
  - Created a proofing error to detect when the branch of the timecard is in a different EINC than the timecard EINC.

### Improvements:

- When a customer enters an employee using the TWOutlookPlugin, the employee profile will now have an activation date.

### Fixes:

- Corrected a close week issue when WebCenter timecards have linked timecard images attached to them.
- Updated the Clarus WOTC proc to populate Totals Hours more appropriately.
- Now when Voiding, Reversing, or reissuing a check, the Hierarchy will match what the original checks was. This would previously use the service rep that's performing one of those actions Hierarchy level. This goes for correcting invoices too.
- The "Check" button on the manage web account form will become disabled if the username

has invalid characters in it.

---

## Taxes

---

### New:

- Pleasant Township, PA added a non-resident tax rate of 1%.
- Center Township, PA Added non-resident tax rate of 1%.
- Earlington, KY added a tax rate of 1.5%.
- Added Toledo Express Airport JEDD, OH with a tax rate of 1%.
- Rush Twp-Uhrichsville JEDD, OH added a tax rate of 2%.

### Rate Changes:

- Updated IL supplemental tax rate to 4.95%.
