

# Order Interview Turnover Ratio Report

Last Modified on 05/22/2018 2:00 pm CDT

## Order Interview Turnover Ratio

Purpose:

This report displays how long it takes to take a candidate from the interview stage to the placed stage. This report also shows a turnover ratio of placed employees. This is a great report to determine what orders do not have any candidates listed on them, high turnover in specific branches, and how long it takes to place candidates.

Start Date:

Group By:

Customer Name:

End Date:

Branch:

Matts Autoparts	Db location	4295077876	Cocktail Bartender	10/10/2017	7	4	8	2	
						57.14%	114.29%	25.00%	
						<b>Matts Autoparts Averages:</b>		8.00	5
						62.50%	100.00%	25.00%	

Parameters:

1. Start Date: Starting order taken date of your desired date range.
2. End Date: Ending order taken date of your desired date range.
3. Branch: A drop-down list of all branches in the user's current hierarchy. Is a multi-value parameter so they can select all branches, just one specific branch, or any combination of different branches in the list.

4. Group By: The following options allow to filter by specific criteria within the report:

- a. Branch
- b. Customer
- c. Job Title
- d. (no grouping)

5. Customer Name: Filters for a specified customer name on the order record.

6. Show: A drop- down list that allows you to filter out orders that do not have candidates on them.

Includes the following filter options:

- a. Show Orders with Candidates Only
- b. Show Orders with No Candidates Only
- c. Show All
