Parameters:

1. Start Date: Starting order taken date of your desired date range.

2. End Date: Ending order taken date of your desired date range.

3. Group By: A list of different fields to group the data into within the report. Has the following group options:

   a. Branch

   b. Customer

   c. Job Title

d. (no grouping)

4. Branch: A drop -down list of all branches in the user's current hierarchy. Is a multi-value parameter so they can select all branches, just one specific branch, or any combination of different branches in the list.

5. Customer Name: Filters for a specified customer name on the order record.

6. Show Hired: A drop- down list that allows you to filter out orders that have not been filled yet in order to not skew your results. Has the following options:

   a. Show Hired Only

   b. Show Non-Hired Only

   c. Show All
