## What are Teams in Beyond?

Service Rep Teams in Beyond™ allow you to divide your users into various teams. An individual service rep may be associated with more than one team. Teams allow you to share searches, look for tasks, and can be a qualifying factor in some reporting.

Deciding types of teams to create and who belongs to what team is completely customizable and is up to you as an administrator to determine. Some examples of how one might create teams:

- Position at your company
  - Sales
  - Staffing
  - Payroll
  - Invoicing
- By Branch
  - St. Paul Branch
  - Minneapolis Branch
  - Oakdale Branch
- Region
  - Northwest
  - South
  - East

Once you have determined the kinds of teams your company has you can begin to create those teams and add users to one or more of those teams.

**\*Note\*** You must be an administrator with the Security Group Permission of "Can Administrate" in order to access service rep team settings.

## How to Create a Team

1. Begin by navigating to B Menu > System Settings.
2. Select Service Rep Teams.
3. New teams can be added by selecting the '+' Icon in the upper right corner:

Manage the membership of service rep teams. Members of a team can share saved searches, tasks, and more! +

## How to Edit a Team

To edit an existing team select the 'more options' button beside the team you would like to edit and select the 'Edit' pencil.

Name ↑	Hierarchy Level	Owner	
Filter...	Filter...	Filter...	
AR	System	Amelia Stout	⋮
Admin	System	alexander.swanson	⋮

Sales	System	alexander.swanson	⋮
Staffing Specialist	System	alexander.swanson	⋮

Doing so will allow you to edit details about the team as well as the members that compose the team.

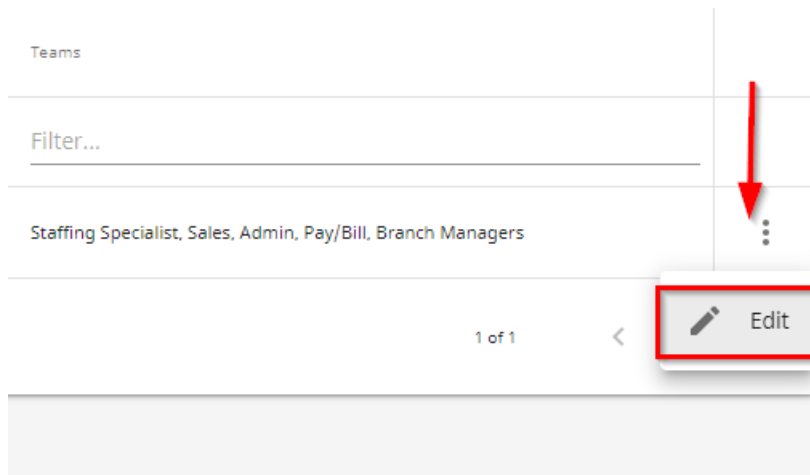

## Managing a Service Rep's Teams

A service rep can be added directly to the team under the 'Service Rep Teams' section under an administrators system settings.

However if you would like to see all the teams an individual service rep belongs to, this can be managed from B

Menu > System Settings >Service Representatives.

By using the name filter an individual rep can be identified or you can find all reps that belong to a specific team. To edit the service rep select the 'more options' button and select the 'Edit' pencil.

Here the service reps teams can be added individually until the representative has all the teams they belong to.

Teams (5)

To remove a service rep from a team simply select the  button beside the team you wish to remove.
