

Release Notes: 11/01/2019

Last Modified on 11/01/2019 7:31 am CDT

Welcome to our new & improved release notes! This will be our new release format to help you navigate through all the new and updated features in our system.

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

The Highlights

Year End Updates

< /h5 >

Our Year End team has been hard at work making sure that your year end process is as painless as possible. This release, we've added some additional tips to help you if you get stuck during the 1094/1095 C process. We've also made some updates to electronic year end files to remove non-numeric characters within phone numbers.

Have questions about year end processing or ready to schedule your year end appointments? Check out [Year End Process / Closing the Year](#) for more information.

Live Chat - "On-Call" Chat Reps

< /h5 >

If you are utilizing our Buzz and Beyond live chat functionality, you will now be able to set yourself as available for one or more branches. This means that you won't just show up as available to those employee's that you on-boarded but will now be able to chat with any employee belonging to a specific branch or branches.

Want to learn more about our live chat functionality? Check out [Buzz - Live Chat](#).
