

Release Notes: 01/24/2020

Last Modified on 01/24/2020 1:55 pm CST

General reminder to all our Enterprise™ users: Make sure you are logging in via apps.ontempworks.com to ensure you are using the most up-to-date version of Enterprise. Check out [How to Log in to Enterprise](#) for more information.

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

Additional Updates

In Beyond

- When creating E-Verify account at system level, the "Owner" field will no longer be required.

In Buzz

- Fixed an issue when entering time on an iOS device, the time options to select would be blank
- Added the ability to attach adjustment documents to time cards.

In Enterprise

- Street 1 and Street 2 lines have been added to the branch setup in administration. Check out [How to Create Branches](#) for more information.

In HRCenter

- **New Config!** Custom Registration Button Text available under Registration allows you to customize the text on the button that applicants use to complete the registration page. For more information, check out [Registration Page Setup](#).
- Mobile Friendly W-4 & additional default pages (skills, contact information, registration page) have new Spanish translations.
- Updates have been made to the drop downs on the registration page to make them easier to use on mobile devices.

Tax Updates:

- Updated 2020 Federal W4 postfill and South Carolina Prefill/Postfill

API Updates: (For Self-Hosted Clients)

- Updated error handling for E-Verify

Congratulations! You've made it to the end of the release notes. Like what you read? **Click the thumbs up below.**
