

# Text-Em-All Overview

Last Modified on 08/26/2020 8:24 am CDT

## TempWorks & Text-Em-All

Text-Em-All enables you to fill job orders with just one text and/or voice message. In minutes, you can reach five people or 5,000. There are no group size limitations, no delays in message delivery, and no limit on users.

Text-Em-All has been the mass messaging leader for staffing firms since 2005. We have over 14,000 active clients and send more than 20 million monthly messages. We're the only platform that gives you the ability to reach individual candidates and also message large groups. Easily manage replies to your messages online as well.

Your candidate database is one of your most valuable tools for filling jobs. Text-Em-All enables you to reach more candidates and do it faster than the competition. Call, text, or both – we give you a competitive advantage.

Want to learn more about Text-Em-All? Check out their website: <https://www.text-em-all.com/>

A screenshot of the Text-Em-All software interface. The top navigation bar includes a notification for "Lunch Today", a user profile for "Employee" with "No Open Employee Records.", and navigation tabs for "tasks", "appointments", "social", and "email". Below the navigation is a search area with filters for "Unassigned", "RepName", "Document Text", "Active", "Branch", and "All Branc". A "Search" button and "Clear Criteria" link are also present. The main content area displays a table of candidates with columns for ID, Last Name, First Name, Branch, Phone, Is Act..., Is Assi..., Last Message, Zip C..., HasR..., and Cell Ph... The table shows a large number of results, with the first 1000 displayed. A tooltip "Create Call-Em-All Broadcast" is visible over the table. The left sidebar contains a menu with options like "visifile", "details", "documents", "integrations", "evaluations", "messages", "pay history", "pay setup", "tasks", "search", "employee", "customer", "order", "assignment", "contact", "pay / bill", "calendar", and "all options".

### Text-Em-All Benefits Include:

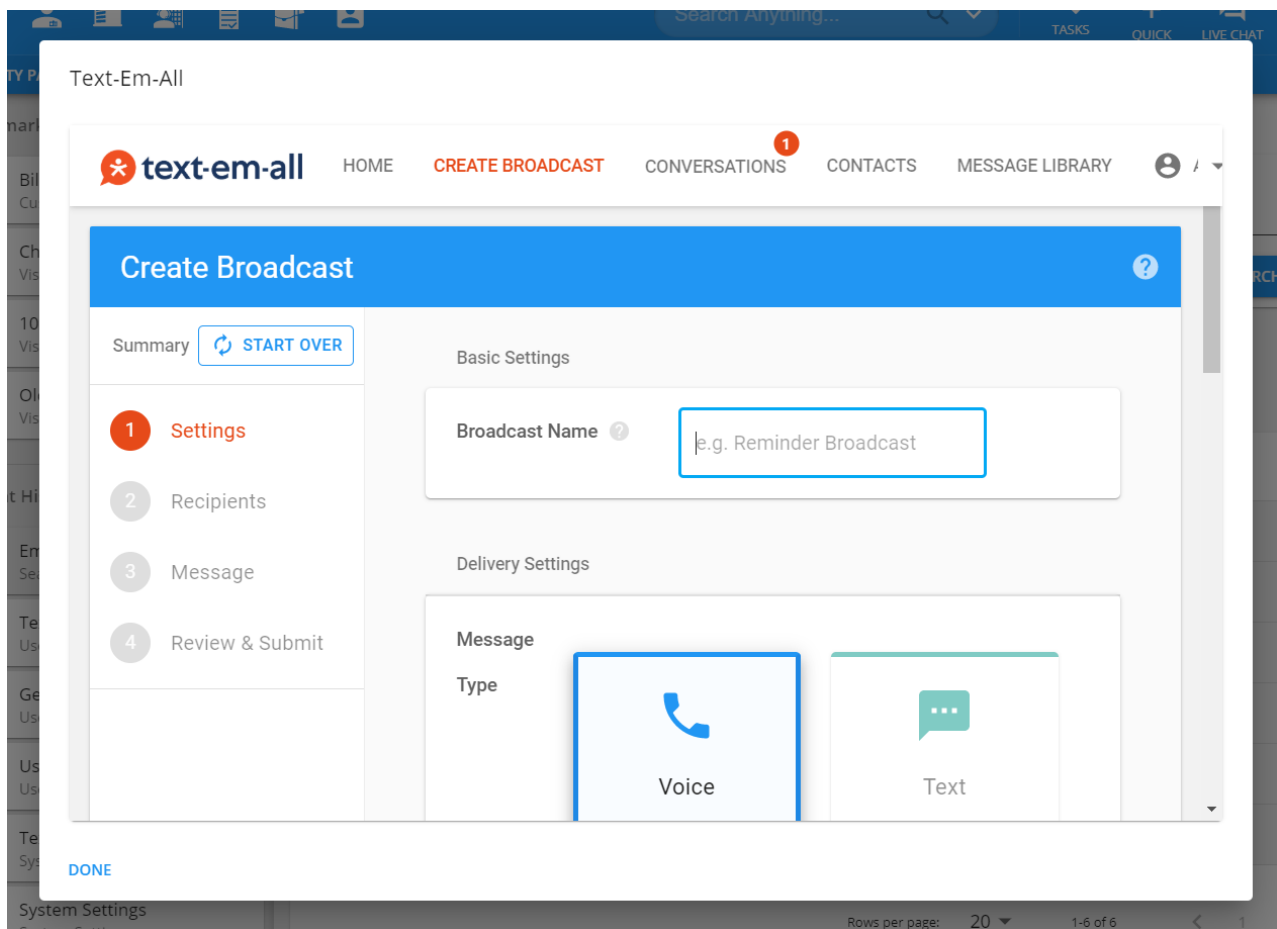

- Fill jobs faster
- Request missing timesheets
- Acquire new talent

- Confirm candidate availability
- Reach any size contact group
- Text, call or have an individual text conversation
