

# Clarus Solutions WOTC Overview

Last Modified on 11/11/2024 10:05 am CST

## TempWorks & Arvo (Clarus Solutions)

Arvo, formerly known as Clarus Solutions, helps staffing firms execute and manage WOTC Optimization Programs. An optimized program maximizes the amount of WOTC tax credits captured by proactively managing WOTC-eligible labor pools. By optimizing their WOTC programs through Clarus Solutions, staffing firms can improve their cash flow, up to 40%! Don't believe us? Please consider being our guest at our next WOTC Optimization Clinic where you and a colleague will learn WOTC optimization best practices, standards and case studies.

### Applicant Information

[Redacted] is participating in the Work Opportunity Tax credit program. We are requesting some information from you to help [Redacted] properly complete the analysis. Federal law requires the survey to be completed on or before the hiring decision date. All information you provide will be solely used for purposes of the tax credit and will not affect your job, wages, or taxes in any way. This program is voluntary, but we appreciate your willingness to complete the following survey.

Clarus, HRCenter, & Enterprise

- [How to Utilize the Clarus WOTC Integration](#)

The screenshot shows a survey interface with a dark header bar. On the left, there is an 'Exit' button. On the right, there are 'Previous' and 'Save and Continue' buttons. The main content area features the title 'Clarus WOTC' in blue, followed by the text 'Clarus' and 'Click [here](#) to take the Clarus survey.' Below this is the 'tempworks' logo and the text 'Powered by TempWorks Staffing Software © 2017 (1.0.0.0 - 17.09.28.0500)'. At the bottom left, there is a large black redacted area, and at the bottom right, the text 'new survey' is visible.
