TempWorks & Crimcheck

Founded in 1991, Crimcheck is committed to protecting our clients' employees, customers and brands by providing thorough, comprehensive and legally compliant employment background screening solutions. Crimcheck is NAPBS Accredited, an HRO Today Baker's Dozen Award Winner, on the Inc. 5000 list for three consecutive years, and certified as a minority-owned business by the NMSDC.

In addition to our awards, Crimcheck's 100% US-based customer service team differentiates us from other providers. While Crimcheck is highly automated, we believe that whenever clients call, they should speak with a real person – an experienced Crimcheck team member who will answer their questions, discuss their needs, and build a longstanding relationship.

Crimcheck's staffing industry focus and accolades position Crimcheck as an exceptional integrated background screening partner with TempWorks. Shared clients can order background checks, track their status and view completed reports without leaving TempWorks Beyond. Crimcheck's mobile-friendly solution enables candidates to easily and securely provide information and electronically sign authorization and applicable state forms. Integrating Crimcheck with TempWorks will improve your team's efficiency, enhance your candidate experience and accelerate time to hire.
