ACA Reporting

If you are using Enterprise or Beyond to track ACA information, we have a few report options for auditing, reviewing, or pulling out important information. Keep in mind that you can also create your own custom options utilizing a custom ACA Search. Check out [Auditing Employee Records with ACA Searches](#) for more information on search options available in your system.

Looking for a list of all ACA Report options available? Check out [ACA Reports Manual](#).

Note Reports in Enterprise require you to have specific security permissions. You will need to have access to the Affordable Care Act reports category in order to see or run any ACA related reports. Check out [Enterprise - Security Roles](#) for more information or talk to your admin if you are not seeing the reports you are expecting to.

Affordable Care Act Minimum Hours

Purpose: Use this report to quickly identify employees who meet your insurance criteria, especially if you are using the [Monthly Measurement Option](#) for ACA tracking.

The report looks to see if any of the employees qualify for the ACA Break In Service rules and if they do, then the report will not show them even if they meet the average hours requirement. Break In Service rules are as follows: if the employee has not worked for a 13 week period or more, or the employee has not worked for 4 weeks or more, where that 4 week break is greater than the preceding work period (e.g. 3 week assignment followed by a 4 week break).

This report displays a list of employees who have worked over a given amount of hours for a given time period.
