

Release Notes: 10/02/2020

Last Modified on 10/06/2020 7:38 am CDT

Fall is officially here which means the leaves are falling and the time for pumpkin carving is drawing near. Let's get into the updates.

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

Additional Updates

In Beyond

- Fixed an error that would occur when updating the Indeed Opt-Out form.
- Fixed an issue where address standardization was not functioning for Worksites.
- Added additional warning text when editing or removing external credentials within Beyond.

In Enterprise

- Increased performance on the default Employee Hours report.
- Modified the ACH Verification Report to no longer pull in unwanted records.

In JobBoard

- Fixed an issue where no more than twenty orders were able to be viewed while using an Android device. Now, more than twenty orders are able to be seen, mirroring the functionality on PC.

Tax Updates:

- Fixed an issue with Maryland tax tiers where taxes were not being calculated properly.

API Updates: (For Self-Hosted Clients)

- Additional updates for future work behind the scenes.

Congratulations! You've made it to the end of the release notes. Like what you read? Click the thumbs up below.
