Release Notes: 10/16/2020

This release introduces a new texting integration partner along with many more optimizations and fixes. Let's get into the updates.

> ***Note*** For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features. There is an additional note for self-hosted users at the end of this article.

The Highlights

Sense Texting

Sense Texting has been released as our latest texting integration partner. For more information, please see the following articles:

- Sense Overview
- Setting Up Sense Texting
- Utilizing Sense Texting

Additional Updates

In Beyond

- Fixed an issue where worksite addresses were not being validated correctly.
- Users will now be presented with a warning in Beyond when their E-Verify password is nearing the expiration date.
- E-Verify errors will now show to the end-user when credentials have expired.

In Enterprise

- Fixed an issue where E-Verify cases were not able to be printed upon completion.

In HRCenter

- Updated Configuration details for Address Standardization pages.
- Fixed timeout issues that were occurring when completing workflows.

Tax Updates:

- Further work has been completed on Maryland tax processing.

API Updates: (For Self-Hosted Clients)

- Additional updates for future work behind the scenes.

Self-Hosted Notes:

1.) Login server changes require a manual SQL migration script (20201016_self-hosted_sql_migrations.ps1 from the TempWorks GitHub repository) to be applied using appropriate paths:

> powershell.exe -ExecutionPolicy Bypass -File .\20201016_self-hosted_sql_migrations.ps1 C:\ProgramData\TempWorks\config\login-server

Congratulations! You've made it to the end of the release notes. Like what you read? Click the thumbs up below.
