Last Modified on 11/06/2020 2:31 pm CST

Hello there and welcome to an off-cycle release week! We've got some good fixes going into the release along with continuing to lay the groundwork for upcoming features. Now, on to the updates.

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

Additional Updates

In Beyond

- Zipwhip messages are now logging in Beyond without increased delay.
- Fixed an error that would occur when Zipwhip credentials are removed within System Settings.
- Further optimizations have been made to the Melissa Address Standardization integration.
- Fixed a display issue with the Job Orders - Buzz Job Orders insight widget.
- Fixed descriptions within the Financials - Payroll Costs Breakdown insight widget.
- Fixed an error that would be received when conducting a message search while using punctuation.

In Enterprise

- Fixed an error that would occur when attempting to send Zipwhip messages.

API Updates: (For Self-Hosted Clients)

- Additional updates for future work behind the scenes.
