

Buzz - Buzz Specific WebCenter Configurations

Last Modified on 11/19/2020 9:32 am CST

Buzz & WebCenter

WebCenter Administration holds specific Buzz configurations to help you further customize your Buzz application and experience for your employees. While many of the configurations that effect WebCenter, including timecard templates and setup, will effect Buzz, there are additional configuration options that are specific to the Buzz app.

This article will review the Buzz specific configs available in WebCenter Admin.

- **New to Buzz?** Check out [What is Buzz](#).
- **New to WebCenter Admin?** Check out [WebCenter - Intro to Administration](#) & [WebCenter Admin - Intro to Configurations](#)

This article includes:

- General Configs
 - Show Generate Invite Code Link
- Job Offer Related Configs
 - Buzz: Hide Job Offer City & State
 - Buzz: Hide Job Offer Location
 - Buzz: Job Offer Location Approximate Distance
- Timecard Entry Related Configs
 - Buzz Timecard Employee Legal Agreement
- Mobile Time Punching Related Configs
 - Enable Tempworks Phone Application Punching
 - Enable Face Verification
 - Enable Geofencing
 - Face Verification Confidence Threshold

General Configs

Show Generate Invite Code Link

This config is located under the *Employee* category in WebCenter Admin:

Show Generate Invite Code Link

Default: **false**

Hide Rules (3) ▼

Toggle whether or not a user will have access to generate an invite code for Buzz.

Rules

When: is Use: True False Add Rule

Edit When **User Role** is **Employee** HiTechQA - 2 ✖

Use **True**

- By default, this configuration is set to **False** which means no invite code will be displayed for employees in WebCenter
- Setting this config to **True** will display a user specific Buzz Invite Code in WebCenter for the employee to use to log into Buzz.

My Information

Job Offer Related Configs

The following WebCenter Admin configs are all located under the Customer category in WebCenter Admin.

All of the configs listed here are related to the Job Offers option in Buzz. Check out [Buzz - Job Offers & Employee: Accepting & Declining Job Offers](#) for more information.

Buzz: Hide Job Offer City & State

Buzz: Hide Job Offer City & State Default: false [Hide Rules \(0\) ▼](#)

If set to true, the city and state information will not be displayed on the details page for a job offer in Buzz.

Rules

When: Select a filter.. ▼ is Use: True False Add Rule

- When this is set to **True**, city and state information **will not** be displayed
- When this is set to **False**, city and state information will be included in the job offer details.

Buzz: Hide Job Offer Location

Buzz: Hide Job Offer Location Default: false [Hide Rules \(1\) ▼](#)

If set to true, there will be no map displayed on the details page for a job offer in Buzz.

Rules

When: is Use: True False [Add Rule](#)

[Edit](#) When Customer is 123 Tools (4295011838) [Default - 1](#) [✕](#)

Use True

- When this is set to **True**, no map will be displayed in the details of a job offer.
- When this is set to **False**, the map will show in the details.

Buzz: Job Offer Location Approximate Distance

Buzz: Job Offer Location Approximate Distance Default: 1000 [Hide Rules \(1\) ▼](#)

Determines how large the radius will be for masking the location of a job offer in Buzz. If set to 0, the exact location will be used. Measured in meters.

Rules

When: is Use: [Add Rule](#)

[Edit](#) When Customer is Buy N Large (4295013744) [Default - 1](#) [✕](#)

Use 1500

- If you set this config to 0, it will use the exact location of the job site.
- Any other number will be the number of meters for the radius of the job site.
 - By default this is typically 1,000 meters giving the employee a good idea of the general area but not the specific site when they are looking at the offer.
 - You may want to update this for specific customers when their worksite is a larger facility.
- If you set Buzz: Hide Job Offer Location to **True**, this setting will not matter because no location will be displayed.

Timecard Entry Related Configs

Timecard Entry configs are located under the Timecard category in WebCenter Admin.

To learn more about setting up Timecard Entry, check out [Buzz - Timecard Entry Setup](#).

Buzz Timecard Employee Legal Agreement

Buzz Timecard Employee Legal Agreement

Hide Rules (0) ▼

This legal statement is displayed in a dialogue box to employees prior to submitting their timecard. If left blank, the timecard will be submitted after the employee has reviewed.

Rules

When: is Use:

- Add a rule here to add a legal statement that will appear when employees are submitting their timecards in Buzz.

Mobile Time Punching Related Configs

Mobile Time Punching configs are located under the TimeClock category in WebCenter Admin.

To learn more about setting up Mobile Time Punching, check out [Buzz - Setting Up Mobile Time Punching](#).

Enable Tempworks Phone Application Punching

Enable Tempworks Phone Application Punching

Default: false

Hide Rules (8) ▼

Used by the Tempworks phone application. If turned on, employees will be able to punch on their phones via the Tempworks phone application.

Rules

When: is Use: True False

[Edit](#) When Customer is Murphy Warehouse (4295012362) Default: -1

Use True

- Setting this config to **True** will enable Mobile Time Punching for Employees
- This is only one step to the Mobile Time Punching setup. Check out [Buzz - Setting Up Mobile Time Punching](#) for more information.

Enable Face Verification

Enable Face Verification Default: false [Hide Rules \(11\) ▼](#)

Used by the Tempworks phone application. If turned on, employees will be required to take a picture of themselves with their phone when they punch and the punch will not succeed unless the picture is verified to be the employee.

Rules

When: Customer ▼ is Buy N Large (4295013744) ▼ Use: True False Add Rule

[Edit](#) When Customer is Woods Enterprise (4295014298) Default - 1 ✕

Use True

- Setting this config to **True** will require employees to use facial recognition when using Mobile Time Punching.
- To learn more about facial verification setup, check out [Buzz - Setting up Facial Recognition](#).

Enable Geofencing

Enable Geofencing Default: false [Hide Rules \(7\) ▼](#)

Used by the Tempworks phone application. If turned on, employees will only be able to punch on assignments through their phone if they are within the boundaries of a punch location specified on their assignment's worksite.

Rules

When: Customer ▼ is 100 ACRE Woods ▼ Use: True False Add Rule

[Edit](#) When Customer is AJ Lawncare (4295013626) Default - 1 ✕

Use True

[Edit](#) When Customer is Woods Enterprise (4295014298) Default - 1 ✕

Use True

- Setting this config to **True** will check if employees are within a specific radius of the job site before it will accept a punch in/out from the Buzz app
- To learn more about geolocation, check out [Buzz - Setting Up Geolocation](#).

Face Verification Confidence Threshold

Face Verification Confidence Threshold

Default: 80

Hide Rules (0) ▼

Used by the Tempworks phone application. This is how confident the face verification system must be that the picture taken is the employee before allowing a punch to succeed. The entered value is a percent value from 0 to 100. The default is 80 for 80%.

Rules

When: is Use: [Add Rule](#)

- By default this config is set to 80% which means the system has to be at least 80% confident that the face presented at the time of punch matches the employee's facial recognition profile.
- If employees are having a hard time getting an accepted punch due to facial recognition you can adjust this confidence threshold % per customer or department.
