

Release Notes: 01/29/2021

Last Modified on 01/28/2021 3:38 pm CST

This Friday is national Fun at Work day so I hope you find a way to make your day fun. 😊

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

Additional Updates

In Beyond:

- Background updates have been made to make the [Sense](#) integration more efficient

In Bridge

- When copying a user in Bridge, that users [security group](#) settings will also copy over
- Fixed an issue where some users were unable to select the Send Email to set up a password option on a new user
- Updated the [users area](#) to ensure all Bridge admins could see the filter options available on the left
- Fixed an issue where Bridge would load perpetually when resetting a user password

In Enterprise

- Fixed an error that was occurring during year end processes when their was no city or school district selected on a PSD code

In HRCenter

- Updated the [Maximus](#) HRCenter page to no longer require DOB

In WebCenter

- Fixed an issue where the impersonate user button was not displaying correctly for users
- Fixed an issue where TimeClock punch summaries were displaying incorrect totals

API Updates: (For Self-Hosted Clients)

- New API Endpoints for future features

Congratulations! You've made it to the end of the release notes. Like what you read? Click the thumbs up below.
