Release Notes: 07/06/2021

This release contains a fix for Email Template Import functionality within Beyond.

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

Product Updates

In Beyond

- Fixed an issue where some users were receiving error messages when navigating to the B Menu > System Settings > Templates and attempting to import email templates into Beyond from Enterprise.

Congratulations! You've made it to the end of the release notes. Like what you read? Click the thumbs up below.
