

# Release Notes: 10/22/2021

Last Modified on 10/21/2021 5:40 pm CDT

No tricks here, only treats in the form of some sweet, sweet fixes. We hope everyone has a safe and happy Halloween!

**\*Note\*** For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

## Additional Updates

### *In Beyond*

- Fixed an issue where the PSD Code field would not appear as intended when editing an Employee's basic tax setup when the Employee is within PA.
- Fixed an issue where the Reports section was missing from the B Menu when the user has proper permissions.
- Fixed an issue where the Employee name was not showing when assigning from an Interview search.
- Fixed a visibility issue when utilizing Beyond on smaller screens.
- Fixed an issue where Required Documents were not updating when selecting the web browsers "Back" button or selecting a Required Documents Search history item.

### *In Buzz*

- Fixed an issue where the Automatic Lunch adjustment was not functioning as intended for employees using mobile time punching.

### *In Enterprise*

- Tax calculations have been updated for timecards created using the Gross Up Calculator while having answered "No" to calculating State and/or Federal taxes.
- Fixed an issue with the Gross Up Calculator where the Gross was defaulting to \$50 where there was no supplemental tax rate.
- Made optimizations to the Task Manager to allow for all tasks to load more efficiently.

### *In WebCenter*

- Fixed an error that would occur when editing and/or submitting a WebCenter Timecard.

### *Tax Updates:*

- Added two Ohio Jurisdictions:
  - Xenia, OH JEDD 1 with a rate of 2.25%.

- Jackson Township, Canton, OH JEDD-TGAB with a rate of 2.5%.

**Year End:**

- Added a new report to the Year End Worksheet titled “W2 1099 Data Check”. This report will open automatically once the “Run Check” has completed within Step 3 of the Worksheet.
- Updated the W2 Estimate Report to provide more accurate results.

**Self-Hosted Notes:**

1.) API database server changes require a manual SQL migration script (20211022\_self-hosted\_sql\_migrations.ps1 from the [TempWorks GitHub repository](#)) to be applied using appropriate paths:

```
> powershell.exe -ExecutionPolicy Bypass -File .\20211022_self-hosted_sql_migrations.ps1  
C:\ProgramData\TempWorks\config\api-server
```

*Congratulations!* You've made it to the end of the release notes. Like what you read? Click the thumbs up below.
