

Off-Cycle Release Notes: 01/07/2022

Last Modified on 01/06/2022 4:29 pm CST

This off-cycle release includes fixes to the Employee W2, the Year End Worksheet, and closing the week within Enterprise.

Note Due to an issue with the TempWorks Release Pipeline, the fixes intended to release on 1/6/2022 are now releasing on 1/7/2022. We apologize for the inconvenience this has caused.

Note For all self-hosted clients, hotfixes will need to be installed in order for the updates to reflect within your system.

Additional Updates

Enterprise Updates:

- Fixed an issue with Salary timecards which would prevent the week from being able to be closed.

Year End Updates:

- Fixed an issue where Pennsylvania PSD Codes were not appearing within Box 20 of the Employee W2 in the event an Employee works within Pennsylvania.
- Fixed an issue where the “Check Finished” button was not able to be selected within Step 3 of the Enterprise Year End Worksheet once all data has been generated and verified.

Congratulations! You've made it to the end of the release notes. Like what you read? Click the thumbs up below.
