Last Modified on 01/19/2022 5:19 pm CST

This off-cycle release includes a fix to the 1095-C Survey in Enterprise along with additional fixes to Year End items.

Note For all self-hosted clients, hotfixes will need to be installed for Year End fixes to be applied to your system.

Additional Updates

Year End Updates:

- Fixed an issue within the 1095-C Survey where the "What is the taxable gross per employee per month?" question of the Safe Harbor rule "Form W2 - Use 9.5% of Gross" would not allow amounts greater than three digits before the decimal point. For example, amounts greater than 999.99 will now be accepted.
 - Fixed additional issues related to Year End updates not reflecting properly.
