

Self-Hosted - Beyond Licensing

Last Modified on 02/24/2022 1:11 pm CST

Overview

Beyond contains licenses to convey relevant information to Self-Hosted clients.

This information being conveyed includes warnings around expiring/expired licenses and/or the maximum number of logins being exceeded.

Licensed Seats are Exceeded

- A license contains a limited number of seats, or logins, available.
- Once the number of seats limit has been reached, additional users will no longer be able to log-in.
- An error will appear in the event a user attempts to log-in once the seat limit has been reached:

Tenant Chooser

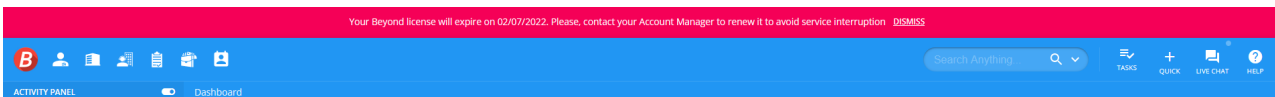

- Access Denied. Number of licenses exceeded. Please contact your TempWorks Account Manager to issue more licenses.

Note After a successful user login, that licensed seat is then “blocked” for 4 days:

- That same seat remains “Blocked” for as long as that same user continues to use Beyond daily.
- If that same user logs in only once for a period more than 4 days, that seat is then unlocked for another user.

License Expiring Soon

- Licenses have expiration dates.
- 30 days prior to the expiration date of the license, users will see a warning bar within Beyond:

Note The warning bar can be dismissed but will re-appear daily, for 30 days.

- During the day in which the license is set to expire, the warning bar will not be able to be dismissed.
- Once the expiration date has passed for the license, users will no longer be able to log-in.

License Already Expired

- Once the expiration date has passed for the license:
 - Users will no longer be able to log-in.
 - Users will see the following error message to contact their TempWorks Account Manager to issue a new license:

Sign In

- Access Denied. License Expired. Please contact your TempWorks Account Manager to issue a new license.

License is Corrupt or Missing

- Once the expiration date has passed for the license, a warning will appear for Self-Hosted users attempting to log-in based on the state of the license:

Tenant Chooser

- Your Beyond license is corrupt or missing. Please contact your TempWorks Account Manager for more information.
