

# Off-Cycle Release Notes: 04/14/2022

Last Modified on 04/13/2022 10:42 am CDT

This off-cycle release enables the Custom Cards and Pages functionality in Beyond, along with the Data Frenzy integration.

**\*Note\*** For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

## The Highlights

### Beyond - Custom Cards & Pages

We have added the ability to create custom cards and pages for use in Beyond. TempWorks Integration Partners will be able to utilize this functionality to add their integration as iframes, directly within Beyond. This means that you can complete the integration workflow without having to leave your instance of Beyond.

**\*Note\*** For more information on this functionality, please see the article titled [Beyond - How to Create and Utilize Cards and Pages](#).

### Data Frenzy Integration

The Data Frenzy integration is now available. Utilizing the custom cards and pages functionality in Beyond, Data Frenzy allows for candidate and job order management, directly within Beyond.

**\*Note\*** For more information on this functionality, please see the article titled [Data Frenzy Integration](#).

*Congratulations!* You've made it to the end of the release notes. Like what you read? Click the thumbs up below.
