Release Notes: 04/07/2023

You know what they say, April showers bring May flowers. You know what they didn't say? That it would be April snow showers, here in Minnesota at least.

This release brings tax updates along with plenty of fixes and improvements across TempWorks products.

> ***Note*** For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

Additional Updates

In Beyond

- Fixed an issue which allowed users to select inactive branches within the Assignment details.
- Improved the display of branch names to match names displayed from Enterprise when conducting searches.
- Fixed an issue where inactive supervisors were being displayed for texting in basic search results.

In Buzz

- Fixed an issue where the "Timeclock QR Code" option was missing on the profile page.
- Fixed a "Location Invalid" error when completing a mobile time punch.
- Fixed an issue where selecting a job order would result in a blank screen.
- Fixed an error preventing users from being able to log into the Buzz application.
- Fixed an issue preventing the On-Site Timeclock branding icon to update.

In Enterprise

> ***Note*** As of 4/7/2023, TempWorks will no longer be allowing new setups of the PeopleG2 integration within Enterprise.
>
> For new setups of the PeopleG2 integration, please reference the instructions for Beyond and contact your Account Manager.

- Created a new default 401K Census Report.
- Fixed an issue where conducting a customer enhanced search using a Zip Code longer than 5 digits would not populate results as intended. Now, Zip Codes entered that are longer than 5 digits will provide intended search results.

In HRCenter

- Fixed an issue where hidden fields would show within the Work History page.
- Added an informative error message when the meta version is not numeric. This error message will show when using an HRCenter form with custom HTML that has an incorrect meta tag version attribute value.
- Fixed an issue where employees would automatically be navigated to the "Review & Submit" page when assigned additional pages. Now, employees will be navigated to the start of the newly assigned page.
- Within the "Federal I9 Mobile Friendly 2020 - Default", the "Document Number" fields under the List B and C sections now require a non-whitespace character.
