

Release Notes: 04/21/2023

Last Modified on 04/20/2023 5:04 pm CDT

This release brings the ability to unlock Web User accounts in Beyond along with plenty of fixes and improvements across TempWorks products.

Self-Hosted Action Required - APIv3 It is essential that the latest migration scripts are applied. Additional information regarding this change can be found within the Self-Hosted note at the bottom of this article.

The Highlights

Beyond - Unlock Web User Accounts

Added the ability to unlock Web User accounts within Beyond while also being able to see the status of a Web User account via the “Web User” charm or the “Web User Details” card.

Note To access this functionality, users will need to have the "Can unlock web user account" permission.

This permission will need to be manually added to your intended Security Group(s) as it is not enabled at default.

Note For more information on this functionality, please see the following articles:

Self-Hosted Notes:

To ensure no interruption to delivery of E-Mail sent from TempWorks products, the following schema change should be made *prior* to applying other release updates.

Email server changes require a manual SQL migration script (20230421_self-hosted_sql_migrations.ps1 from the [TempWorks GitHub repository](#)) to be applied using appropriate paths:

```
> powershell.exe -ExecutionPolicy Bypass -File .\20230421_self-hosted_sql_migrations.ps1  
C:\ProgramData\TempWorks\config\api-email-server
```
