

# Release Notes: 05/19/2023

Last Modified on 05/18/2023 1:25 pm CDT

This release brings UI enhancements to features within Beyond, tax updates, and additional fixes to TempWorks products.

**\*Note\*** For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

## The Highlights

---

### Beyond - Indicate Service Rep Who Assigned Workflow

Added fields that allow for the indication of the service rep that assigned the HRCenter workflow:

- Added a new field to the Workflow Details called "Assigned By" that indicates the service rep who assigned the workflow by displaying the full name of the service rep.
- Added the "Assigned By" search field to the Onboarding search form which is a dropdown containing all service reps.
- Added the "Assigned By" column to the search results grid in the Onboarding search which is not displayed by default but can be seen by right clicking on the column headers and selecting "Assigned By".

**\*Note\*** For more information on this functionality, please see the article titled [Beyond - Onboarding](#).

## Beyond - E-Verify UI Enhancements

Completed the following E-Verify enhancements within Beyond:

- Created a tooltip warning when attempting to create an E-Verify case without SSN permissions.
- Updated search form field labels.
- Added an employee link that, once selected within the E-Verify Case Search, will navigate the user to that respective employee record.

**\*Note\*** For more information on this functionality, please see the following articles:

- [Beyond - How to Process E-Verify Cases](#)
- [Beyond - E-Verify Case Search](#)

## Additional Updates

---

### *In Beyond*

- Fixed an error that would occur when sorting and navigating through pages of an Advanced Search.
- Fixed an issue where inactive customer statuses were showing within the Contact Status drop down.
- Fixed an error that would occur when attempting to create a PeopleG2 background check within the Background Check sidebar.
- Fixed an issue where the "Shift" field within the job order advanced search would not update as intended after updating the shift on the job order record.

### *In Buzz*

- Fixed an issue where push notifications were not being received as intended.
- Fixed an issue where job offer notifications would be received when the notifications had been previously disabled.

### *In HRCenter*

- Updated the "Ohio IT 4" HRCenter page to require the "School District of Residence" and "School District Number" fields.

### *In Reports*

- Fixed the "Year to Date" calculations when using date ranges within the CO Family Paid Leave Export.
- Fixed an issue within the WYSUTA Mag Media file where wages were appearing doubled.

- Fixed an issue within the Metrics Front Office report where the “Client Hired” column would be “0”.
- Fixed an issue where the default KPI report would time out within Beyond.
