## Additional Updates

### *In Beyond*

- Fixed an error that would occur when editing a message.
- Fixed Beyond standard reports to be made compatible with UTC.
- Fixed an issue preventing users from updating E-Verify passwords within Beyond.

- Fixed an error that would occur when attempting to edit information within the “Hiring” card.
- Fixed an error that would occur when Text-Em-All would attempt verification on phone numbers with 10+ numbers.
- Fixed an issue preventing employees with a Rhode Island driver's license from completing an Asurint background check.

#### ***In Buzz***

- For iOS devices, fixed an issue preventing push notifications from appearing.

#### ***In Enterprise***

- Fixed an error that would occur when attempting to edit an invoice that contains an adjustment that is listed as not billable. This is for adjustments setup for PEO billing.

#### ***In Reports***

- Fixed the IL Equal Pay Export to include employees that do not have a termination date.
- Updated the CA Pay Transparency report to display the code associated with the Race/Ethnicity/Sex value.
- Updated the Experian Payroll Data Export to properly define the pay period week of Sunday-Saturday.
- Created a new standard report titled “Employee PII Archive” which provides information on employee records that have had PII deprecated as a result of the updated data retention policy.
