

Beyond - How to Create Interest Codes

Last Modified on 07/20/2023 8:31 am CDT

What are Interest Codes?

Interest codes are quick tags on records that provide different searchable and reportable information. These are extremely powerful tools for your employee, customer, contact, and job order records to track any quick bits of information.

Examples of Interest Codes include:

Record Type	Example Interest Codes
Employee Record	Background Check Complete Forklift Driver Bi-lingual Customer Service Warehouse High School Diploma 1st Shift
Customer	Warehouse Forklift Uses Competitor 1st Shift Background Check (requirement) Payrolled Interested in Payroll Services
Contact	Likes Starbucks Industrial Staffing Clerical Looking for Temp Employees Looking for Direct Hire Employees Uses Competitor
Job Order	Background Check (requirement) Forklift 2nd shift License (requirement) Customer Service

You may notice that some interest codes can be used on multiple records for slightly different meanings.

This Article Covers:

1. [Gaining Access to Adding Interest Codes & Categories](#)
2. [How to Add an Interest Code](#)
3. [How to Add an Interest Code Category](#)

Gaining Access to Adding Interest Codes & Categories

Users will need to be a member of a Security Group that contains the "Can Administrate" permission to gain access to the "Interest Codes" page in Beyond System Settings.

Note If you utilize custom Security Groups with Advanced Permissions, please add the "Access" to the "Interest Codes" Pages within Settings > System Settings > Interest Codes to the Security Groups that require the functionality:

System Settings	Access
Interest Codes Page	Access
Add Edit Category Form	Access
Add Edit Interest Code Form	Access

For more information on created custom Security Groups with Advanced Permissions, please see the following article titled "[Beyond - Creating Security Groups with Advanced Permissions](#)".

How to Add an Interest Code

Interest Codes must be added by an administrator before they will be available for service reps to use. This article will walk through the options when creating an Interest Code in Beyond.

Note Before you start adding interest codes, we recommend being at the highest Hierarchy you have available (whether that is entity, subsystem, or system) to ensure you have access to edit and see all options in Beyond.

1. Navigate to B Menu > System Settings > Interest Codes

INTEREST CODES				CATEGORIES			
Interest Code Name	Record Type	Category	Hierarchy	Status	Any		
+ NEW INTEREST CODE							
Search returned 769 results							
Interest Code Name	Active	Web Public	Record Types	Hier	Category	Localization	Note
ACCT-Accountant	✓	✓	Employee	System			⋮
ACCT-Accounting Manager	✓	✓	Employee	System			⋮
ACCT-Accounts Payable	✓	✓	Employee	System			⋮
ACCT-Accounts Receivable	✓	✓	Employee	System			⋮
ACCT-Auditor	✓	✓	Employee	System			⋮

2. Select "+ New Interest Code" in the upper right

INTEREST CODES				CATEGORIES			
Interest Code Name	Record Type	Category	Hierarchy	Status	Any		
+ NEW INTEREST CODE							

3. Enter/review the following information:

Add Interest Code

* Interest Code Name
Registered Nurse

Web Public

* Record Type(s)
Employee

Category
Nursing

* Hierarchy
NursesNow, Inc (Entity)

Add localization

Localization: Español * Interest Code: Enfermera Registrada

Note
For Registered Nurses

SAVE AS DRAFT CANCEL SUBMIT

- o **Interest Code Name** - This is where you enter the name of the interest code as you want it to appear in your system
 - The "Add localization" option is used if you want this web public interest code to have a Spanish translation in the event an employee/applicant is using the [Spanish format of an HRCenter workflow/page](#). Please note Beyond will not translate the English word for you; you must manually type in the Spanish version.
 - Select the "Add localization" checkbox.

- Add in your Spanish translation for the interest code name.
- Select "Add" to add the localization to the interest code.

Add localization

Localization * Interest Code

Español v Enfermera Registrada ADD

- When **editing** an **existing** interest code, in the event additional localizations (French and/or German) have been added within Enterprise, these will be seen within Beyond and are able to be edited but not added.
- **Web Public (Checked By Default)** - Checking this box will make this interest code visible when applicable in HRCenter and WebCenter. This is mostly related to the [application page](#) that allows employee's to pick their own skills/interests.
- **Record Type(s)** - Select all the record types that this interest code can be used on.
- **Category** - This option gives you the chance to organize Interest Codes into Categories. Select the proper category from the drop down (you'll be able to add more categories, which we'll cover below).
 - When selecting a category for the interest code, and you intend for the interest code to be "Web Public", please make sure you are selecting a category that is also listed as "Web Public".
- **Hierarchy** - Determines where the interest code will exist and be accessible in your database. If this interest code is only applicable to one branch, then you can set it to that branch. Most of the time, we recommend keeping interest codes at the highest level (system, subsystem, or entity) to ensure all users can utilize it.
- **Note** - This information is only for Admin purposes. You can enter any notes as to why you entered this interest code in case you ever need to look back on it.

4. Select "Submit".

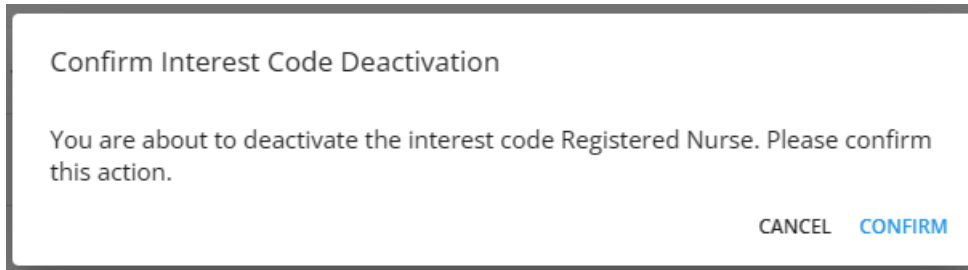

Note Once added, new interest codes are set to "Active" by default.

Once the interest code has been added, you can edit or deactivate the interest code by selecting the  icon to the right of the interest code and selecting either "Edit" or "Deactivate":

INTEREST CODES					CATEGORIES			
Interest Code Name	Record Type	Category	Hierarchy	Status	CLEAR FILTERS X			
Registered				Any				
Search returned 1 result								+ NEW INTEREST CODE
Interest Code Name	Active ↓	Web Public	Record Types	Hier	Category	Localization	Note	
Registered Nurse	✔	✔	Employee	NursesNow, Inc	Nursing	Spanish	F	
							Rows per page: 20 1 of 1  Edit  Deactivate 	

Selecting "Deactivate" will show a confirmation prompt. Select "Confirm" if you'd like to proceed with the

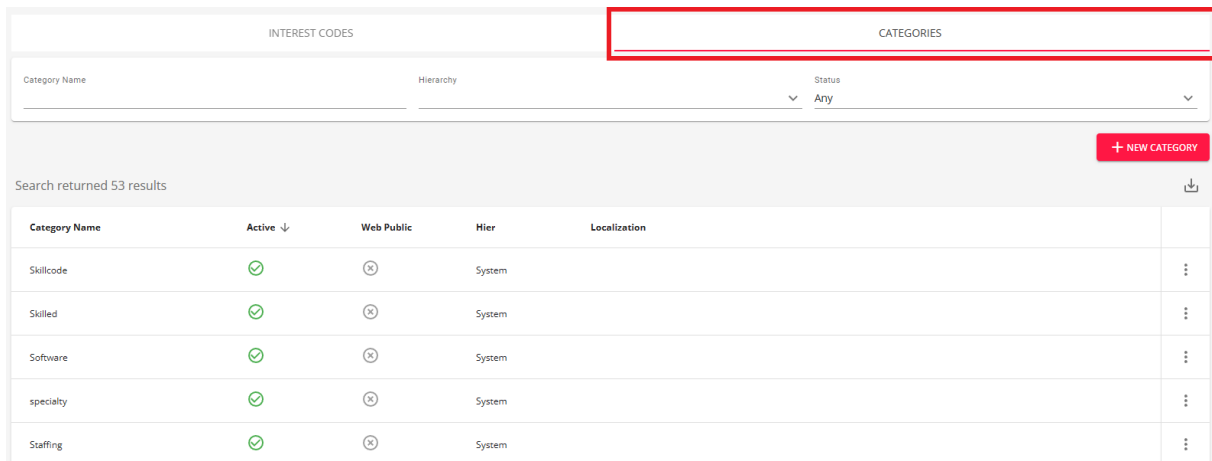

deactivation of the interest code:

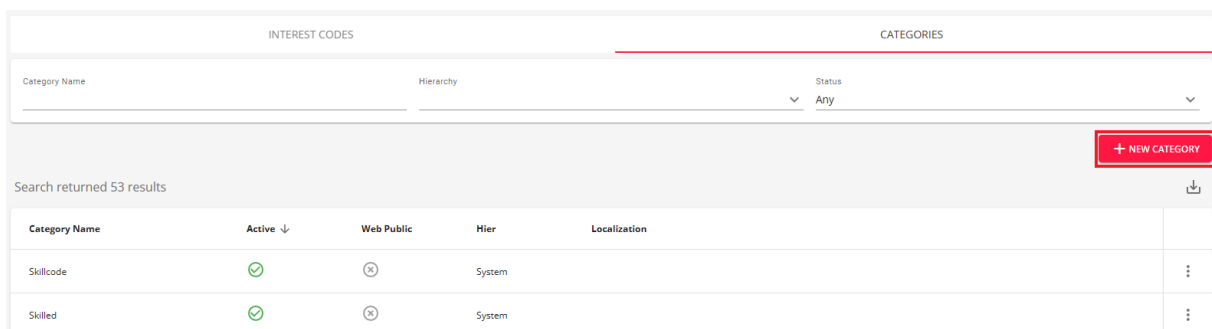

How to Add an Interest Code Category

Once you've added a few interest codes, your system might start to seem a little cramped with options. Categories allow you to organize your interest codes to make them easier for service reps to find.

1. Navigate to B Menu > System Settings > Interest Codes > Categories tab

2. Select the "+ New Category" on the right to add a new Category

3. Enter/review the following information:

- **Category Name**- Enter the name of the category as you want it to appear for your users.
 - The "Add localization" option is used if you want this web public interest code category to have a Spanish translation in the event an employee/applicant is using the [Spanish format of an HRCenter workflow/page](#). Please note Beyond will not translate the English word for you; you must manually type in the Spanish version.
 - Select the "Add localization" checkbox.
 - Add in your Spanish translation for the category name.
 - Select "Add" to add the localization to the category.

- When **editing** an **existing** interest code category, in the event additional localizations (French and/or German) have been added within Enterprise, these will be seen within Beyond and are able to be edited but not added.
- **Web Public** - Checking this box will make this category visible when applicable in HRCenter and WebCenter. This is mostly related to the [application page](#) that allows employee's to pick their own skills/interests.
- **Hierarchy** - Determines where the interest code will exist and be accessible in your system. If this interest code is only applicable to one branch, then you can set it to that branch. Most of the time, we recommend keeping interest codes at the highest level (system, subsystem, or entity) to ensure all users can utilize it.

4. Select "Submit".

Note Once added, new interest code categories are set to "Active" by default.

Once the interest code category has been added, you can edit or deactivate the category by selecting the  icon

to the right of the category and selecting either "Edit" or "Deactivate":

The screenshot shows a web interface with two tabs: "INTEREST CODES" and "CATEGORIES". The "CATEGORIES" tab is active. Below the tabs, there are search filters for "Category Name" (Nursing), "Hierarchy", and "Status" (Any). A "CLEAR FILTERS" button is visible. Below the filters, a "NEW CATEGORY" button is present. The main content area shows a table with the following data:

Category Name	Active ↑	Web Public	Hier	Localization
Nursing	✓	✓	NursesNow, Inc	Spanish

At the bottom right of the table, there is a dropdown menu with "Edit" and "Deactivate" options. The "Deactivate" option is highlighted with a red box.

Selecting "Deactivate" will show a confirmation prompt. Select "Confirm" if you'd like to proceed with the deactivation of the category:

The confirmation dialog box has the following text:

Confirm Interest Code Category Deactivation

You are about to deactivate the category Nursing. Please confirm this action.
