

Release Notes: 08/25/2023

Last Modified on 08/24/2023 2:56 pm CDT

This release brings plenty of fixes and improvements across TempWorks products.

Self-Hosted Action Required It is essential that the latest migration scripts are applied. Additional information regarding this change can be found within the Self-Hosted note at the bottom of this article.

Additional Updates

In Beyond

- Fixed an error that would occur when generating a resume preview.
- Fixed an issue where HTML report pages would break when printing.
- Fixed an issue where user theme settings would not save as intended.
- Fixed an issue preventing the ability to edit customer shift information.
- Fixed an error that would occur when opening the Background Check sidebar.
- Fixed an error that would occur when creating and editing interest code categories.
- Fixed an issue preventing new Microsoft 365 email accounts from saving/displaying.
- Fixed an issue preventing new worksites from being added to departments at default.
- Fixed an issue where branch names were being cut off when viewing within Time Entry.
- Fixed an issue where the “Target” employee would not appear when the “Merge Record” window.
- Fixed an error that would occur when saving an interest code as a draft that contains a localization.
- Fixed an issue where saving an interest code category as a draft would not validate a duplicate name.
- Fixed an error that would occur when attempting to merge employee records when using a custom procedure.
- Updated the tax calculation for Colorado by adding the “Alternative Standard Deduction” field within the employee tax setup in Beyond.

Note For more information on this functionality, please see the following article titled [Beyond - How to Manage Employee Taxes](#).

In Enterprise

- Fixed an issue preventing users from being able to select an “Action” when logging a message on an employee record.
- Added two assignment restrictions to prevent any employee with the tax state of Maryland or Indiana from

being assigned in the event they do not have a County Juris set up.

- Created two assignment restrictions to prevent any employee with the tax state of Washington or Oregon from being assigned in the event they do not have an Employer or Employee L&I rate configured for Worker Comp that is associated with one of those states.

In HRCenter

- Fixed the "Email field is not a valid email address" error when the email is not required within the page/workflow.
- Added the 2023 Colorado Employee Withholding Certificate page that will be used with the "Alternative Standard Deduction" field in Beyond.

Note For more information on the "Alternative Standard Deduction" field and how it correlates to the page, please see the following article titled [Beyond - How to Manage Employee Taxes](#).

In Reports

- Modified the Tax Collection Detail report to exclude converted check taxes.
- Added the Worksite ID to the New Jersey Employee Assignment Notice report.
- Fixed an error that would be received when running the Occupational Employment and Wage Statistics report.
- Modified the WebCenter Earning Statement and standard check stubs to accommodate requirements of New Jersey Law 1474.

Self-Hosted Notes:

For all self-hosted clients, TempWorks will be performing updates for the Login Server over the next several releases. As a result, it is required that Self-Hosted clients make sure to install all hotfixes related to this release as soon as possible and not skip a release.

Login server changes for this release require a manual SQL migration script (20230825_self-hosted_sql_migrations.ps1 from the [TempWorks GitHub repository](#)) to be applied prior to upgrading services using appropriate paths:

```
> powershell.exe -ExecutionPolicy Bypass -File .\20230825_self-hosted_sql_migrations.ps1  
C:\ProgramData\TempWorks\config\login-server
```

Congratulations! You've made it to the end of the release notes. Like what you read? Click the thumbs up below.
