Release Notes: 01/12/2024

Last Modified on 01/11/2024 3:39 pm CST

Welcome to the new year! This release includes additional fixes and improvements across TempWorks products.

> ***Note*** For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

Additional Updates

In Beyond

- Fixed an issue where resume sourcing and matching would show filled orders.
- Fixed an issue preventing all Job Titles from appearing within the Job Title dropdown.
- Fixed a visibility issue where Departments wouldn't sort as intended after adding a new Department.
- Fixed an issue where the Department list would not update as intended after adding a new Department.
- Fixed a visibility issue where Message Action Descriptions would not appear as intended within the Action dropdown.

In Enterprise

- Fixed an issue preventing ADP Wisely paycards from converting to ACH.
- Fixed an issue where invoices would not consolidate into a single email when setup properly.

In HRCenter

- Updated the Colorado W4 to the latest version based on state requirements.
- Updated the Maryland W4 to the latest version based on state requirements.
- Updated the South Carolina W4 to the latest version based on state requirements.
- Fixed an issue within the Alabama W4, preventing users from entering "0" within Line 6.
- Within the Spanish "Basic Information" page, added a missing label for the Last Name field.
- Fixed an issue preventing an error from appearing for applicants uploading unsupported file types.

In Reports

- Fixed the parameters within the default 401k Census Report.
