

HRCenter - Upcoming Registration Redesign

Last Modified on 03/19/2024 4:06 pm CDT

Overview

TempWorks Software is excited to announce our HRCenter registration and sign-in page will be receiving a fresh new look later this month! Included with this are enhanced features for an improved user experience, including an easy to navigate sign-in experience that is fully optimized for mobile devices.

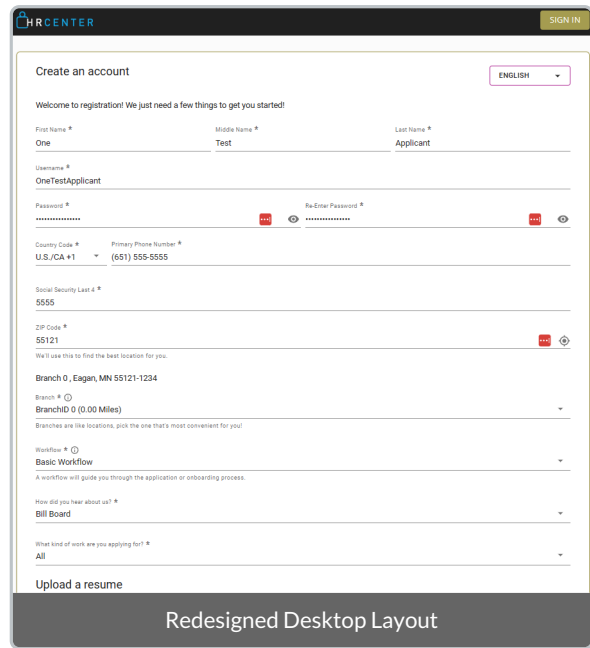

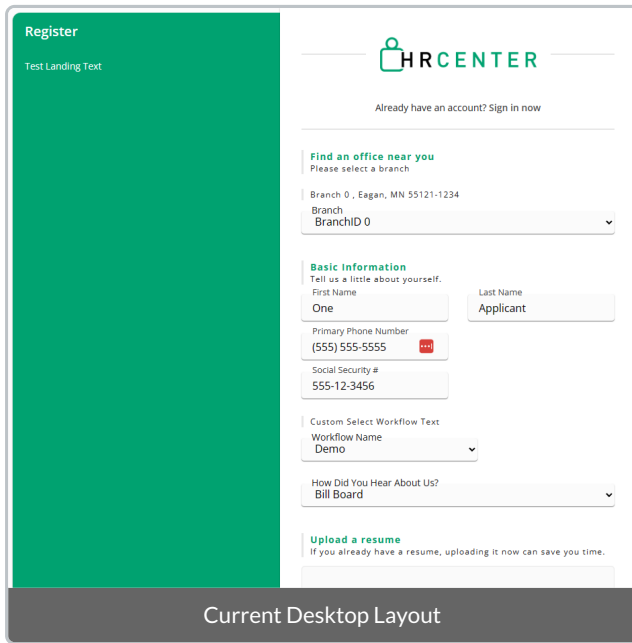

What's Changed?

The following updates/enhancements have been added to the Registration and Sign-In pages of HRCenter:

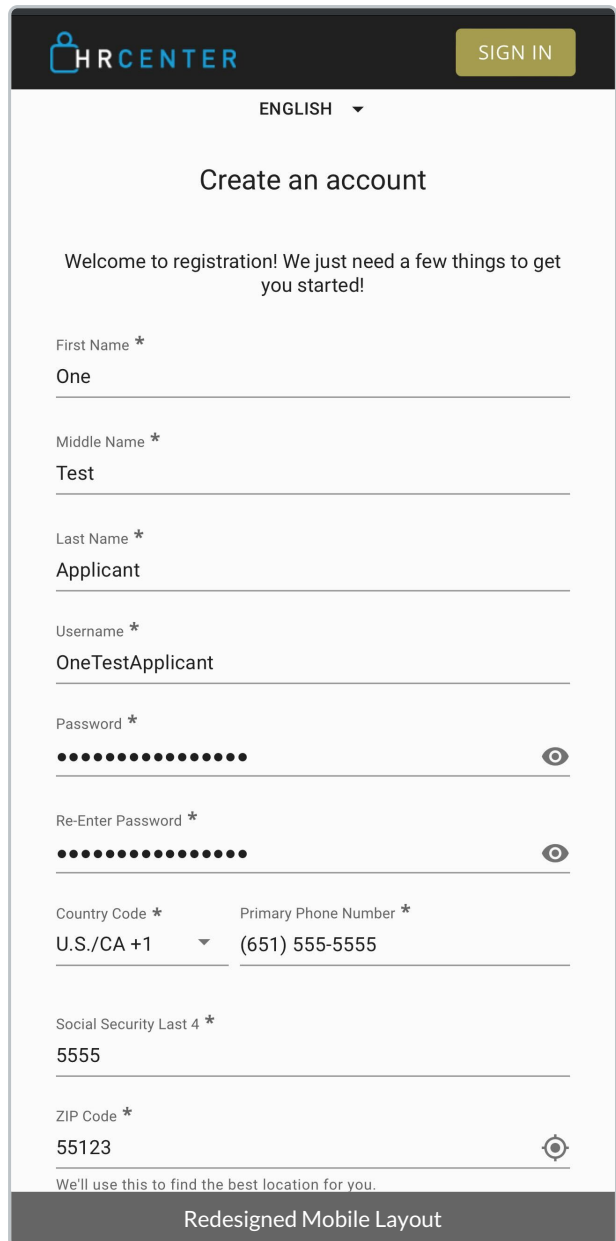

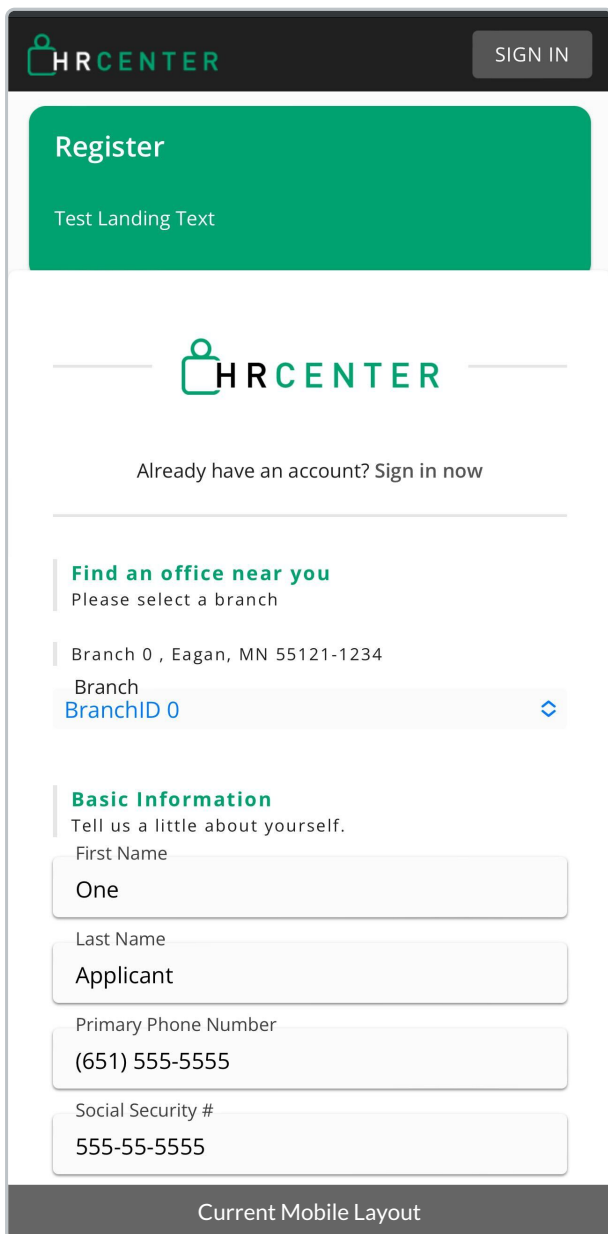

- Streamlined Desktop Layout
- Streamlined Mobile Layout
- Redesigned Sign-In Page
- Registration Page Customization Options
- Custom CSS/JavaScript for HRCenter Branding

Note For the following examples, the **current** look of HRCenter will be shown on the **left**, with the **redesigned** look of HRCenter on the **right**.

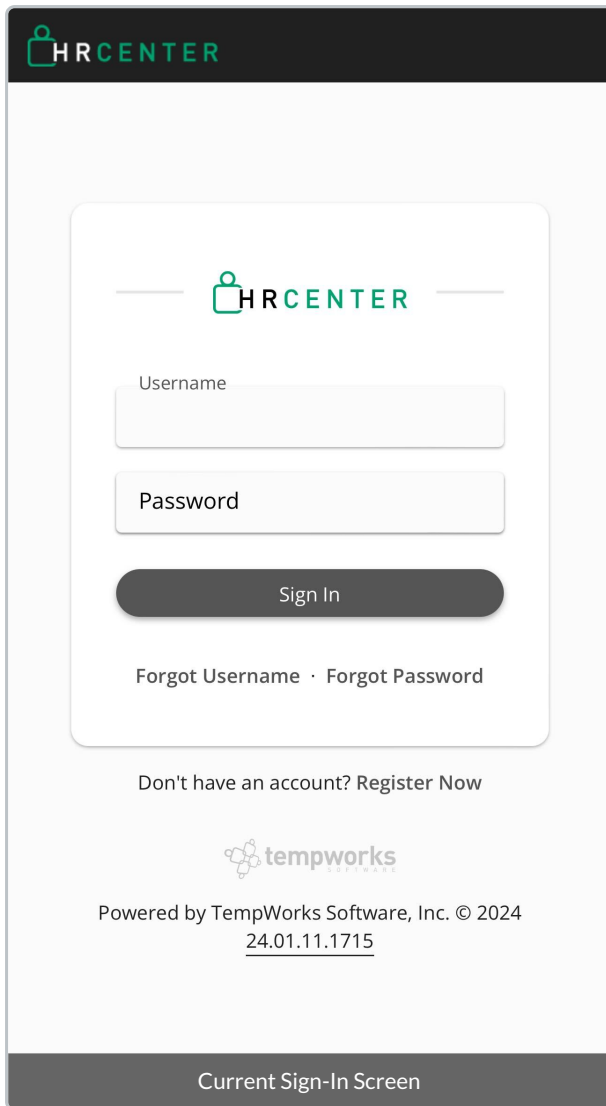

Streamlined Desktop Layout

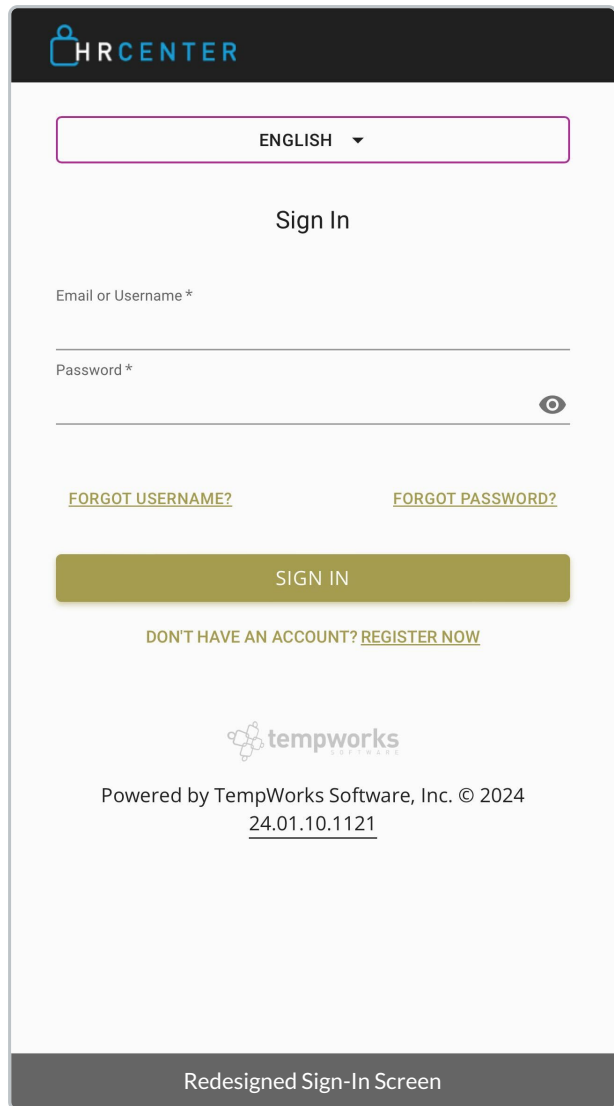

Streamlined Mobile Layout

Redesigned Sign-In Screen

Text of Select Workflow Text that will appear above the workflow selection on the registration page	Update

For more information on this functionality, please see the article titled [Registration Page Setup - Registration Redesign](#).

Custom CSS/JavaScript for HRCenter Branding

Note While we don't anticipate any issues upon release, if you have applied any custom CSS or JavaScript to your registration page, we recommend you copy and save the text in the Custom CSS and Custom Javascript fields in HRCenter Admin to ensure your customizations are not lost.

If you have **never** written in CSS or Java script before, we highly recommend that you do **not** attempt to update or change the Custom CSS or Custom Java script options without consulting a professional.

Theme	
Branding FavIcon Browser FavIcon (16 x 16px). 	<input type="button" value="Upload"/>
Branding Logo Dark Background Branding logo for a dark background (176 x 40px recommended with transparent background). 	<input type="button" value="Upload"/>
Branding Logo White Background Branding logo for a white background (250 x 55px recommended with transparent background). 	<input type="button" value="Upload"/>
Custom CSS Custom CSS for HR Center	<input type="button" value="Update"/>
Custom Java script Custom java script for HR Center	<input type="button" value="Update"/>
Primary Color Customize your primary color to a preferred color.	<input type="color" value="#a59c50"/> #a59c50
Secondary Color Customize your secondary color to a preferred color.	<input type="color" value="#b02c97"/> #b02c97
