

Release Notes: 04/05/2024

Last Modified on 04/04/2024 3:38 pm CDT

Welcome to April! This release brings proof payroll functionality to Beyond along with fixes and improvements across TempWorks products.

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

The Highlights

Beyond - Proof Payroll

The ability to proof payroll has been added to Beyond.

Note For more information, please see the article titled [Beyond - Proof Payroll](#).

The following proofing functionality still must be completed within Enterprise:

- Mark timecards as "Not Payable".
- Mark timecards as "Not Billable".
- Post timecards (Complete Payroll).

Additional Updates

In Beyond

- For the Asurint background check integration: Fixed an issue preventing Missouri driver's license numbers from being entered.
- For the Asurint background check integration: Updated asterisks to be "alpha/numeric" characters that are within Washington driver's license numbers.

In Enterprise

- Fixed an issue where adjustments would duplicate for 1099 employees.
- Fixed an error that would occur when attempting to view ACH runs to abandon.

In Reports

- Added a new parameter titled "Hide Billing" within the default Employee Hours report which, if selected to be "True", will hide all billing information within the report.

Congratulations! You've made it to the end of the release notes. Like what you read? Click the thumbs up below.
