

Release Notes: 06/14/2024

Last Modified on 06/12/2024 3:24 pm CDT

This release brings plenty of fixes and improvements across TempWorks products.

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

Additional Updates

In Beyond

- Fixed an issue preventing users from adding multiple candidates to a job order.
- Fixed an issue where email templates utilizing “##Master.invoice.InvoiceNumber##” within the subject line would not respect invoice emails where the "one invoice per email" check box is checked within the customer billing setup > recipient section.
- Within the Customer Search, updated the “Service Representative” fields to now state “Account Manager”.

This is shown within both the filters and the results:

The screenshot displays the 'Customer Search' interface. The 'BASIC' filter section includes 'Customer Name', 'Customer Id', and 'Status'. The 'ADVANCED' filter section includes 'Include Departments' (set to 'Yes') and 'Branch' (set to 'All'). A red box highlights the 'Account Manager' dropdown menu, which is currently set to 'Ivelina Kavalova'. Below the filters, a table shows 12 search results. A red box highlights the 'Account Manager' column in the table, showing 'Ivelina Kavalova' for all results.
