Release Notes: 07/26/2024

Last Modified on 07/31/2024 2:31 pm CDT

This release brings plenty of fixes and improvements across TempWorks products.

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

Note We're on the move! We are thrilled to announce we are transitioning our corporate headquarters from Eagan MN to Bloomington MN. As of July 29, 2024, our physical location will be 5600 W 83rd St Suite 400, Bloomington MN 55437.

This announcement modifies any notice address that might have previously applied under contract(s) executed with your company, such that contract notices should now be sent to the Bloomington, MN address, and not the Eagan, MN address.

Please email twaccountsreceivable@tempworks.com or reach out directly to the account management team via accountmanagers@tempworks.com if you have any questions.

Additional Updates

In Beyond

- Fixed a timeout error that would occur when attempting to merge employee records.
- Fixed an issue where a default email signature would not be included when composing an email.

In HRCenter

- Fixed an issue preventing the creation of a new form.
- Fixed an error that would occur when attempting to add a translation to a step and/or workflow.
- Fixed an error that would occur when selecting the "Refresh Cached Data" option within HRCenter Admin.
- Fixed an issue where removing a linked survey from an existing custom form page would cause the page to not function as intended.
- Updated the requirements for Google Analytics Tracking to Google Analytics 4.

Note To utilize Google Analytics Tracking within HRCenter Admin, you will need to enter your Google Analytics 4 Tracking ID via HRCenter Admin > Tenant > Configuration > Tenant > Google Analytics:

Tenant

Custom Property Tenant Name
Tenant Name for Custom Properties and Function
