

Release Notes: 09/06/2024

Last Modified on 09/04/2024 9:17 am CDT

Welcome to September! This release brings enhanced functionality related to References, Bookmarks, the DNA Charm, and Dashboards in Beyond along with additional fixes and improvements across TempWorks products.

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.

The Highlights

Beyond - References

References have been enhanced within Beyond, allowing for the creation and management of reference questions, the addition of a “Notes” field, and an increased character limit for the answering of questions.

Note For more information, please see the article titled [Beyond - References](#).
