

# Release Notes: 06/27/2025

Last Modified on 06/26/2025 11:12 am CDT

This release includes tax updates along with additional fixes across TempWorks products.

**\*Note\*** For all Self-Hosted clients, login server changes require a manual SQL migration script to be applied, **and** Enterprise deployments require manual configuration file changes.

More information can be found within the "For Self-Hosted Clients" section of this article.

## Additional Updates

### *Beyond*

- Fixed an issue preventing the ability to select the "Submit" button when adding cards to a Dashboard.

### *Enterprise*

- Fixed an error that would occur when attempting to delete a timecard that contains a timecard adjustment.

### *HRCenter*

- Updated the default New York W4 postfill procedure to update the local tax setup according to applicant's resident city (New York or Yonker).

### *WebCenter*

- Within the Enhanced Customer Portal:
  - Fixed an issue where report names would appear incorrectly.
  - Fixed an error that would occur when attempting to run a custom report.
- Fixed an error that would occur when attempting to save an adjustment document to a timecard.
- Fixed an issue where timeclock timecards would appear within the incorrect tab after removing punches.

**\*Note\*** In preparation for a future release of the refreshed and enhanced WebCenter Employee Portal, TempWorks has added a new configuration within the "Miscellaneous" category titled "WebCenter Employee Portal Access". Please note that this configuration will **not** function at this time.

For more information about our software beta participation opportunities, please contact your TempWorks Account Manager.
