

TempWorks Mobile App - Application Localization

Last Modified on 06/09/2026 11:21 am CDT

Overview

With localization settings, the TempWorks Mobile Application will be translated into your preferred language of English or Spanish.

While the TempWorks Mobile Application will default to the language of your device (English or Spanish), you can also choose your preferred language setting directly within the application via User Settings > Language Preference > Select the appropriate flag:

Note The TempWorks Mobile Application will default to the language of your device (English or Spanish). Please follow the instructions outlined within the following articles to update the language settings on your device:

- [Android \(Section labeled "Change the language on your Android device"\)](#)
- [Apple](#)

While the TempWorks Mobile Application will have text translated to Spanish, there are specific fields that require manual localizations added within Beyond. This article will outline the localizations that will need to be setup in

Beyond first in order for the translations to appear as intended within the TempWorks Mobile Application.

Beyond Localizations

There are areas in Beyond that will need to have localizations added in order for the translations to appear within the TempWorks Mobile Application:

Note Beyond will **not** translate the English word for you; you must manually type in the Spanish version.

- **Administration**
 - Job Titles
- **Customer**
 - Worksite Dress Codes and Directions
 - Public Job Titles and Job Descriptions
 - Default Shifts and Shift Notes
- **Job Order**
 - Directions
 - Job Descriptions, Dress Codes, Safety Notes, and Shift Notes
 - Job Board Public Job Titles and Public Job Descriptions

Administration

Localizations can be added to Job Titles by navigating to B Menu > System Settings > Job Titles.

When adding a Job Title, select the "Add Localization" checkbox:
