

Release Notes: 06/12/2026

Last Modified on 06/10/2026 12:43 pm CDT

This release includes fixes across TempWorks products.

Additional Updates

Beyond

- Fixed an error that would occur when attempting to deactivate Single Sign On authentication methods.
- Fixed an error that would occur when updating an employee's WebCenter role to "Applicant" via Beyond > Employee > Web User Details > "Change Role".

Enterprise

- Added the "Run for Multiple States" checkbox parameter when running the New Hire export via Enterprise > Pay/Bill > Actions Menu > Export > Employee > New Hire Files.
 - This parameter allows you the option as to whether you want the New Hire export to run for one or multiple states.

Reports

- Fixed an issue within the default Certified Payroll report where the daily and total hours fields were not displaying as intended.

WebCenter

- Fixed an issue preventing a parent customer contact from removing an adjustment within a timecard for an employee of a department record.

For Self-Hosted Clients

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.
