

Employee - Using TimeIntel by TempWorks

Last Modified on 07/07/2026 2:17 pm CDT

What is TimeIntel by TempWorks?

The TimeIntel by TempWorks application is what you will use to clock in and out of when on assignment. The app will be installed on a device near or in the facility you are working in.

Note Talk with your recruiter and supervisor to ensure you understand your shift length and whether you need to clock in and out for breaks or lunch.

How to Use the On-Site Time Clock App

There are a few different ways that you can punch in and out from the TimeClock App. Check with your recruiter or supervisor for the option you will be using.

- Pin or QR Code
- Facial Recognition

Using Your Pin or QR Code

When approaching the TimeIntel by TempWorks application, enter your 6-digit pin:

Tue, Jul 07, 2026

10:53 AM

Enter your 6-digit PIN

 PIN Info

 ENG	 ESP
--	--

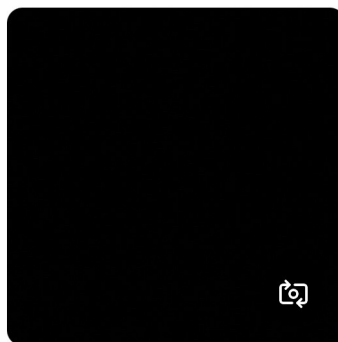

Note Optionally, you can scan your QR Code provided by your recruiter or supervisor:

Tue, Jul 07, 2026

10:54 AM

Align QR code within the frame to scan

[Sign in with PIN](#)

 QR Info

The QR code can be scanned from another device as long as the brightness on the screen is turned up and the screen is clean.

Upon entering your pin (or scanning your QR Code), you will be automatically directed to where you will submit your punch:

Note Before punching, please verify that you are submitting a punch for your current assignment, shown at the top of the screen.

In the event you have more than one "Active" assignment, you will be prompted to select the assignment you

want to submit the punch for:

Using Facial Recognition

Your staffing company may also require facial recognition in addition to the log in options. If they do, you will be asked to take a picture of your face during the punch process to ensure you are the one punching in and out.

< MobileUATKramer, Joshua

Assignment: Senior Customer Center #4302454634
Department: UAT On-Site Time Clock - Facial

Facial Verification Required for Punch

Look straight ahead at the camera

You will be logged out after a successful punch.

In order to utilize Facial Recognition punching, you must first set up your facial recognition profile. This can be done within the TimeIntel by TempWorks application and typically is done with your recruiter.

Note For instructions on how to setup Facial Recognition within the TimeIntel by TempWorks application, please see the article titled [Employee - How to Setup Facial Recognition](#).

In the event you do not have your facial recognition profile setup, you will be shown the following warning when attempting to submit a punch:

 In: 2:29am 8:07am	 Out: 3:33am 8:15am
6/16/26	Hours: 0.00
 In: 6:11pm	 Out:

Frequently Asked Questions

Q: What if I forget to punch in/out?

A: Let your supervisor or recruiter know as soon as possible. They can update your punches manually to ensure you are paid for your time worked.

Q: I lost my Pin/QR Code, can I get a new one?

A: Your recruiter or on-site rep can provide you with your pin and/or QR Code.

Q: The application is not recognizing my face for facial recognition, what do I do?

A: Make sure you are in a well-lit area and try removing your hat or glasses to start. Check out [Employee - How to Setup Facial Recognition](#) for more information on facial recognition. If you still aren't recognized, you can work with your recruiter or on-site rep to reset your facial recognition profile.

Q: What if I have more than one assignment?

A: You will be prompted to pick which assignment you are clocking in for each time you punch in and out. If you have questions or concerns on which you should select talk with your recruiter, on-site rep, or supervisor.

The last assignment you punched in/out from will appear at the top of the screen, but you can select a different assignment by selecting the dropdown.

Depending on the number of other assignments you have at the same location, you may be able to select from a few different options. Select the assignment you want to punch in/out for.
