Note With this update, manually entered dates are handled differently, where the fields are separated into month, day, and year respectively. As a result, when manually entering dates, you must use the **MM/DD/YYYY** format.

- For example:
 - January 2, 2026, should be entered as **"01/02/2026"**
 - Entering **"1/2/2026"** **may not be** interpreted correctly

It is recommended that you update your date format within Beyond via B Menu > User Settings > Localization and select "MM/DD/YYYY" as this will make the date prompts more intuitive:

Additional Updates

Beyond

- Added the "Exclude this adjustment from being considered as payroll cost towards gross profit calculation" option when adding/editing adjustments within Beyond.

Note For more information, please see the article titled [Beyond - How to Setup Adjustments](#).

- Optimized the "Notification Administration" screen to increase performance.

Bridge

- Optimized the "Users" page to increase performance.

Enterprise

- Fixed a timeout issue when attempting to abandon/recreate ACH files.
- Fixed an issue preventing the ability to print or download PDFs from search results.

HRCenter

- Updated the Massachusetts Withholding Form based on the requirements provided by the state of Massachusetts.
- Fixed an issue where fields would prefill incorrectly within the Colorado Withholding Form when using Google Chrome.

Reports

- Updated the Payroll Journal report to include/exclude checks by “Payee Type”.

For Self-Hosted Clients

Note For all self-hosted clients, as always, ensure you install all updates to give your users the best experience and new features.
